

Solidarity Message from Land Workers' Alliance, UK Deirdre Butterly

*A message of solidarity and support to people who are forced and/or choosing to leave their homes to come to Europe, and to all Europeans migrating ***within* Europe.

*We are against the rising xenophobia in Europe. We support the right of people from around the world to migrate to Europe, and the right for Europeans to migrate within Europe. We stand in support with all those that are being persecuted, attacked, criminalised and forcefully deported at our borders and in countries across the European continent.
