

Estimation of agricultural losses resulting from the violations of the Israeli occupation during the period 01/10/2015 till 30/06/2016

The Union of Agricultural Work Committees (UAWC) follows up intensely the Israeli violations against the Palestinian farmers to expose the brutality of the occupation to the local and international world.

West Bank

Since 1st October; where the Israeli forces remarkably escalated the use of force against Palestinian civilians participating in demonstrations in the occupied Palestinian territories, using their internationally proscribed weapons against the unarmed stone throwers.

These demonstration came as a rejection for continuous Israeli crimes which are represented by Israeli settlers' daily attacks on the Palestinians in holy city of Jerusalem, The daily arrests by the Israeli forces, the systematic policy of torture of the Palestinians, and settlers' crimes against the Palestinians, such as; burning them alive. A latest incident of "Dawabsheh" family in Duma village, in the governorate of Nablus is a live example of the terrorism being implemented by the Israeli settlers.

In addition to the continuous occupation activities, such as land confiscation and settlements expansion over the peasants' lands, the systematic Israeli polices suffocating the Palestinian economy, and the abject failure in peace negotiations between the Palestinian Authority and Israeli forces, which lead only to more Israeli occupation's control over the Palestinian sovereignty.

All of these violations have forced the Palestinians to arrange demonstrations all over West Bank, Jerusalem, Gaza and the occupied Palestinian land in 1948, to express their anger, where Israeli forces brutally repressed protesters by killing them in front of the eyes of the whole world, and conducted daily executions against Jerusalemites just because they are Arab Palestinians.

During the reporting period, the number of martyrs in the West Bank and Gaza Strip has reached to **250** Palestinian civilians, while more than **8,000** were wounded with live ammunition and rubber bullets

Note: numbers and facts rely on the United Nations office for the coordination of Humanitarian Affairs weekly reports, unless stated otherwise.

Gaza Strip

- A 54-year-old Palestinian woman was killed while farming her land east of Khan Younis, and another eight Palestinian civilians, including six children, were injured, in a series of Israeli air strikes and tank shelling across the Gaza Strip.
- 12 fishermen, including four minors, were forced to take off their clothes and swim towards Israeli naval forces boats where they were taken into custody.
- In the Gaza Strip, Israeli forces opened fire in the Access Restricted Areas (ARA) along the perimeter fence and in the sea on at least 40 occasions. A farmer was injured in one of the cases and ten fishermen, including a child, were forced to take off their clothes and swim towards Israeli naval forces boats, where they were taken into custody. Despite the lack of an official announcement or demarcation, areas up to 300 metres from the perimeter fence are considered to be a “no-go” area, except for farmers who may access up to 100 metres, while areas up to 1,000 meters are considered high-risk, discouraging cultivation.
